NOTES TO THE FINANCIAL STATEMENTS
FOR THE NINE-MONTH PERIOD ENDED FEBRUARY 29, 2020 AND FEBRUARY 28, 2019
(Expressed in Canadian dollars)
(Unaudited)

1. NATURE OF OPERATIONS

Portofino Resources Inc. (“the Company”) was incorporated on June 14, 2011 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is Suite 520, 470 Granville Street, Vancouver, British Columbia, Canada. The Company’s shares are listed for trading on the TSX Venture Exchange (“TSX-V”) under the symbol “POR”. On October 10, 2018, the Company incorporated under the laws of Argentina, Portofino Argentina S.A. which has had no transactions occurring during the nine-month period ended February 29, 2020. The subsidiary is owned 95% by the Company and 5% by the Company’s CEO.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at February 29, 2020, the Company had not yet determined whether the Company’s mineral property asset contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the properties or realizing proceeds from their disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

The Company has an accumulated loss of \$273,527 as at February 29, 2020 (2019: \$549,335), which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These unaudited condensed interim consolidated financial statements do not give affect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these unaudited condensed interim consolidated financial statements.

2. BASIS OF PRESENTATION

The Company prepares its condensed consolidated interim financial statements in accordance with International Accounting Standards 34, Interim Financial Reporting (“IAS 34”), under International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretation of the International Reporting Interpretations Committee (“IFRIC”). These should be read in conjunction with the Company’s annual audited consolidated financial statements as at and for the year ended May 31, 2019 (“annual financial statements”). The accounting policies and critical estimates applied by the Company in these condensed consolidated interim financial statements are the same as those applied in the Company’s annual financial statements, unless otherwise stated.

These condensed consolidated interim financial statements were approved by the Board of Directors on April 28, 2020.

3. CHANGES TO SIGNIFICANT ACCOUNTING POLICIES

Exploration and Evaluation Expenditures

The Company has changed its accounting policy with respect to Exploration and Evaluation Assets. Prior to this change, the Company capitalized all costs related to mineral exploration and property evaluation expenditures. The Company now expenses all Exploration and Evaluation costs related to mineral property exploration and will be expensed at cost.

3. CHANGES TO SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Exploration and Evaluation Expenditures (Continued)

The Company has reviewed its presentation in the Statements of Comprehensive Loss and Statements of Financial Position and the change in the Company's accounting policy has no significant impact on the current or prior period's net loss of financial position.

The revised policy under Exploration and Evaluation Expenditures, is as follows:

Costs incurred with respect to exploration and evaluation ("E&E") of the Company's mineral properties, including acquisition costs, are expensed as incurred until the technical feasibility and commercial viability of extracting the mineral resource has been determined. Once technical feasibility and commercial viability of the mineral resource is determined, only costs directly related to E&E expenditures are capitalized. Costs not directly attributable to E&E activities are expensed in the year in which they occur.

When a project is deemed to no longer have commercially viable prospects to the Company, capitalized E&E expenditures in respect of that project are deemed to be impaired and capitalized amount in excess of the estimated recoverable amounts are written off to the statement of comprehensive loss.

The Company assesses each significant asset for impairment when facts and circumstances suggest that the carrying amount of an asset may exceed its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use. These assessments require the use of estimates and assumptions such as long- term commodity prices, discount rates, future capital requirements, exploration potential and operating performance.

Once the technical feasibility and commercial viability of extracting the mineral resource has been determined, the property is considered to be a mine under development and is classified as 'mines under construction'. E&E assets are tested for impairment before the assets are transferred to development properties.

4. NEW ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Corporation may have been excluded from the list below.

Standard is effective for annual periods beginning on or after January 1, 2019:

IFRS 16 *Leases* - In June 2016, the IASB issued IFRS 16 - *Leases*. IFRS 16 establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17.

Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. However, lessees are no longer classifying leases as either operating leases or finance leases as it is required by IAS 17. The standard is effective for annual periods beginning on or after January 1, 2019. The Company has evaluated the potential impact of this standard on the Company's financial statements and does not anticipate any material impact on the Company's financial statements from the adoption of this standard.

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

International Financial Reporting Standards 7, *Financial Instruments: Disclosures*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash, which is classified as Level 1. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

Assets measured at fair value on a recurring basis were presented on the Company's statements of financial position as at February 29, 2020 are as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	\$	\$	\$	\$
Cash	6,638	-	-	6,638

Fair value

The fair value of the Company's financial instruments approximates their carrying value as at February 29, 2020 because of the demand nature or short - term maturity of these instruments.

The following table summarizes the carrying value of the Company's financial instruments:

	2020	2019
	\$	\$
Cash(i)	6,638	147,553
Amounts receivable (ii)	38,988	35,109
Promissory notes (ii)	257,758	256,077

11. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (CONTINUED)

Financial risk management objectives and policies

The Company's financial instruments include cash, amounts receivable, promissory notes and accounts payable. The risks associated with these unaudited condensed interim consolidated financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company is exposed to foreign currency risk related to cash payments, exploration expenditures and its promissory notes that are denominated in US dollars and Pesos. The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada. Management does not hedge its exposure to foreign exchange risk and the Company's net exposure is limited.

The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk to the extent that the cash maintained at the financial institution. The fair value interest rate risk on cash is insignificant due to their short - term nature.

The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist of cash and promissory notes. To minimize the credit risk the Company places these instruments with a high quality financial institution.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.
